

BRITISH ENGLISH FOR INDIANS CORPORATE RATES

British English for Indians trains the Indian speaker in an international style of spoken English, based firmly on Received Pronunciation (RP, or Standard British English). It also trains the client to recognize and comprehend 14 of the most commonly encountered global dialects of English. With **text, maps, and full audio**, this may be the first training programme of its kind that both targets the Indian speaker specifically, and includes dialect-recognition training.

It is delivered to you online as a digital, encrypted eBook, so there are no hard copies to keep track of, and no shipping costs, freeing you of all administrative chores. A unique, renewable access code is generated for each computer from which you wish the programme to be accessed, each valid for one year. (e.g. If your company uses 200 computer terminals for training, regardless of the number of trainees using those terminals, you should purchase 200 access codes.)

NUMBER OF ACCESS CODES (each valid for one computer for one year)	PRICE EACH (\$USD)
1-20	16.95
21-50	15.00
51-100	13.00
101-200	11.50
201-400	10.00
401-1000	8.50

In development:

- *American English for Indians*
- *American English for Spanish speakers*
- *British English for Spanish speakers*
- *American English for Filipinos*
- *British English for Filipinos*
- **Interactive versions** of all the above titles, allowing the trainee to record the exercises and submit the recordings to either an in-house trainer, or to our company for evaluation and advanced training.

For a free, 7-day trial copy, to order fully functional access codes, or to discuss our evaluation and advanced training services, please contact us at:
