Phone Call: The call is free within the continental USA, and free Skype-to-Skype worldwide.

Recording the session: You should plan to record the sessions at your end so that you can play the recordings as often as you like. Several devices allow you to record phone conversations. In the USA, see Radio Shack at: <http://www.radioshack.com/product/index.jsp?productId=2062697&cp=&sr=1&origkw=phone+recording&kw=phone+recording&parentPage=search>; similar devices are available from electronics stores in other countries. In the UK, see Maplins at <http://www.maplin.co.uk/Search.aspx?doy=25m3&source=15&criteria=phone%20recording>. For an additional \$20, we will record the session at this end for your immediate download as an mp3; or snail-mail a CD recording for \$25 plus shipping.

Discounted booklet/CD: If we are working on a particular dialect, then the cost of the relevant booklet and CD, or eBook, is discounted by 50%. Other packages (involving the lease of show-specific CDs, for example) can be negotiated at an inclusive price.
